The power of the Staffroom Dynamics and Click! Colours lies in its simplicity. Instead of dozens of questions, computer logins, pre-briefings, de-briefings, expensive fees and complicated reports we have four simple cards.

They are effective because they are easy to access, use and understand - and in busy workplaces it's the simple things that work.

The Staff Room Dynamics workshop will give your staff the tools and knowledge to help them understand why people (teachers/students/parents) behave the way they do, and help them build relationships, improve team communication skills, and identify personal potential. Most importantly it will help all educators understand their colleagues!

## Why do you Click with some people and others drive you CRAZY!

### You and your team will learn:

How and why people build relationships, make decisions and communicate?

How people view the actions of others in a team?

Why some people's behaviour can drive others crazy?

How you are perceived by others?

How to optimise relationships within a team?

How to motivate team members to achieve peak performance?

How to mould different individual styles into a strong and high performing team?

Enjoy a dynamic learning experience that will help you understand people's behaviour and boost success and happiness in your work and in life.

BEING HAPPY AT SCHOOL

abc Ed

HAPPINESS CO

Happiness edU understand the importance of what makes people happy and how students and teachers can be ambassadors of Happiness in their school communities.

HAPPINESS CO IS A SOLUTION BASED MODEL, BUILT TO IMPACT AND INSPIRE CHANGE IN PEOPLE'S LIVES

Attempted suicide rates are increasing year on year, and feelings of isolation and loneliness are reaching breaking point. Heavy stuff right? With no improvement in sight and what seems like more unhappiness than ever before, kindness and care is something the world is in desperate need of.

That's why Happiness edU is needed now, more than ever before. What we're here to do is complicated but also beautifully simple. Inspire more people to change more lives, because we can't do this alone.

We believe it is everyone's responsibility to make someone else's life better and that life does not get better by chance, but only by planned, purposeful change.
